Message from Director General

STPI's endeavors to realize the vision of Prime Minister for an inclusive digital growth by dispersing BPO jobs to tier 2 and 3 cities and empowering the youth of those regions to get job opportunities at their native place are showing visible results on the ground. The expansion of BPO industry from metros to smaller cities has finally gained momentum through BPO Promotion Schemes, launched two years back. During the live interactions of BPO scheme beneficiaries including employees and employers through video conferencing with the Prime Minister held on 15th June 2018, when two young women employees from small towns of Nagaland and Bihar shared their

Services Pvt. Ltd. at Coimbatore were inaugurated. On 25th April 2018, two more BPO units such as Oasys Cybernetics Pvt. Ltd. and IVTL Infoview Technologies Pvt. Ltd. were inaugurated at Trichy. Contrary to the popular trend that the ratio of male employees to female employees is always higher, the BPO unit of Nightingale Software Park Pvt. Ltd. has altered this trend. In this unit, the number of female employees is more than four times the number of male employees. In short, while female employees' count is 74 the male employees' count is only 16. This trend is certainly overwhelming. The Government's vision for women empowerment through meaningful employment is

After two years of launch, the BPO Promotion Schemes have been implemented in 115 cities in India and 229 BPO units have already been allocated 41,040 seats out of 53,300. The most striking point here is the dispersion of BPO industry from metros to tier 2 and 3 cities is happening with greater agility and efficacy.

Dr. Omkar Rai
DG, STPI

experience with the PM that BPO Scheme has helped them getting a job in their hometown and they now feel empowered. This largely connotes the vision of PM has transformed the lives of thousands such young people immensely who earlier had to migrate to metros for searching a decent livelihood. Similarly, when an employer from a small city of Tamil Nadu expressed his gratitude to the PM for launching the BPO Schemes and empowering the local entrepreneurs to start BPO units and create jobs for the youth, this underscores the fact that the dispersion of BPO industry to smaller cities is gaining ground and, with the much-needed financial support and incentives for the schemes from the government, the local entrepreneurs are now able to build an ecosystem for creating employment opportunities through the BPO Schemes.

In the last week of April, five BPO units under the India BPO Promotion Scheme were inaugurated at Coimbatore and Trichy. On 24th April 2018, three BPO units such as Nightingale Software Park Pvt. Ltd., Raise BPO Pvt. Ltd. and Access Healthcare

getting realized. Another trend that's happening is that from the city of Coimbatore, the employees of Access Healthcare Services Pvt. Ltd. are delivering both voice and non-voice services to international clients of USA. This indicates that the youths of small towns are equally competent and skilled with respect to their counterparts in the metros, and they just needed the opportunities to prove their worth. Unmistakably, the BPO Promotion Schemes have worked as a major change agent in this direction.

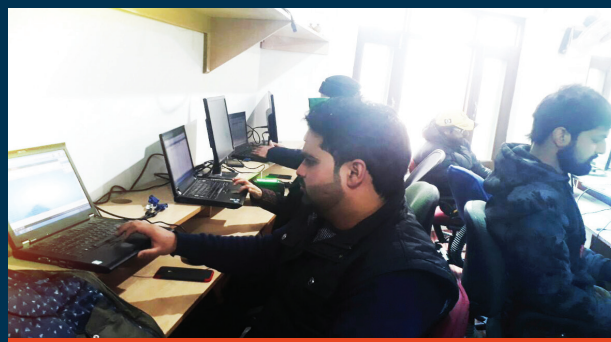

After two years of launch, the BPO Promotion Schemes have been implemented in 115 cities in India and 229 BPO units have already been allocated 41,040 seats out of 53,300. The most striking point here is the dispersion of BPO industry from metros to tier 2 and 3 cities is happening with greater agility and efficacy. This trend will eventually diminish the digital divide and will boost entrepreneurship and employment opportunities at the regional level, making the Indian economy progressive and inclusive. □

Success Story

iKraft Software: Creating Jobs in Srinagar under IBPS

iKraft Software Pvt. Ltd. is a software and web development company which started working out on outsourced projects developing smart apps and web portals based on web 2.0 back then in 2008-09 in Srinagar, J & K.

Gradually, the company started working for the Government projects in 2009-10 as a service provider for data digitization and scanning. They did projects for urban local bodies and then Srinagar Municipal Corporation. Their first big project in this space in 2011-12 by digitizing around 30 lakhs bilingual records, each record consisting of 28 fields for Census Department for Registrar General of India.

Challenges Faced by the Company

Being established in Srinagar, Jammu and Kashmir the utmost challenge is to survive without disrupting the business. The instability and poor infrastructure are key causes of industry backwardness for the area and the organization. However, the business has managed to sustain 75 employees so far and they plan to grow more.

How IBPS Helped?

Before IBPS, the organization used to own small projects in different places. From a business perspective, the company was not sure enough to invest in J&K. The scheme has encouraged the business towards consolidating and establishing a well-equipped BPO unit at Srinagar and the capital support within the scheme has loosened the burden of financial need. The scheme is now providing the business with an opportunity to connect to a wide range of customers through GEM.

Word from CEO

"The IBPS scheme gave us an opportunity to consolidate our strengths and pursue our dream in a systematic and ambitious way. The scheme provided us a lot of benefits and we established quite a decent 50-seater setup in the heart of Srinagar and 75 people are working under IBPS scheme for different Government projects," **concludes Mr. Irfan Mustaq.**

Cover Story

Live Interaction of PM with BPO Promotion Scheme Beneficiaries

Hon'ble Prime Minister Shri Narendra Modi interacted with Pradhan Mantri Gramin Digital Saksharta Abhiyan and Digital India beneficiaries on 15th June 2018 at 9.30. Selected BPO units across India and their employees shared their experience with PM through live video conferencing.

Hon'ble Prime Minister hailed India BPO Promotion Schemes initiative as an effective instrument for growth of employment across India. Interacting with beneficiaries of Digital India, Prime Minister said that Digital India was launched with a simple focus to ensure more people can benefit from the joy of technology, especially in rural areas.

The beneficiaries of BPO scheme while sharing their experiences with the Prime Minister told him that how their lives have been transformed through initiatives like India BPO Promotion Scheme and North East BPO Scheme, through which BPO units are being established in small towns and generating employment opportunities at the local level.

During the one-hour long programme, Shosinle Thong, Temjenlong Longkumer from Nagaland, Khushboo Kumari from Bihar and Suresh V S from Tamilnadu shared their experiences with Hon'ble Prime Minister.

Hon'ble Union Minister, MeitY Met with BPO Units of Maharashtra

Shri Ravi Shankar Prasad, Hon'ble Union Minister for Electronics & IT and Law & Justice, had an interactive meeting with BPO units operating from Maharashtra during his visit to Mumbai on 30th June 2018. Shri Sanjay Kumar Gupta, Director STPI-Pune, presented the status of the India BPO Scheme in Maharashtra to Hon'ble Minister who appreciated the performance of STPI-Maharashtra during the meeting.

Activities & Events

Srishti 2018: Promoting Innovation and Entrepreneurship

Srishti 2018, an annual technical event to promote innovation and entrepreneurship amongst students pursuing engineering studies, was held during 22nd May 2018 to 24th May 2018 at Dayanand Sagar College of Engineering, Bengaluru. Many dignitaries including Shri Vajubhai Vala, Governor of Karnataka; Dr. Karisiddappa, Vice Chancellor of Visvesvaraya Technological University and Dr. Omkar Rai, Director General, STPI were present during the event. Dr. Omkar Rai expressed that he has been personally visiting Srishti for many years and seen many excellent products and ideas that have been created, conceived and displayed by the students of the engineering colleges from the state of Karnataka. Srishti is providing an excellent opportunity and platform for all the persons to work together to learn from the prior experiences to see each other products and get together to create a kind of formal learning environment and atmosphere.

Inauguration of BPO Units

Dr. Omkar Rai, Director General, STPI, inaugurated three BPO units such as Nightingale Software Park Pvt. Ltd., Raise BPO Pvt. Ltd. and Access Healthcare Services Pvt. Ltd. under India BPO Promotion Scheme on 24th April 2018 at Coimbatore. On 25th April 2018, he inaugurated two more BPO units such as Oasys Cybernetics Pvt. Ltd. and IVTL Infoview Technologies Pvt. Ltd. at Trichy.

Nightingale Software Park Pvt. Ltd., a 100-seater BPO unit employing 90 people at Coimbatore, provides supportive services such as BPO (Voice/ Non-voice), medical transcription, medical coding, LPO/KPO and software development services in key verticals including hospitals, hotels, financial and telecom sectors.

Raise BPO Pvt. Ltd., a 100-seater BPO unit employing 80 people at Coimbatore, provides BPO, KPO and IT outsourcing services to clients such as Rathinam College of Arts and Science, Rathinam Technical Campus and ED Social Tech Pvt. Ltd.

Indo-Africa ICT Expo 2018

STPI participated in the Indo-Africa ICT Expo 2018 as an exhibitor to showcase the proven capabilities of India as a preferred destination for services and outsourced R&D in the ICT sector. The event held in Lagos, Nigeria during 22nd – 23rd May 2018 was organized by Telecom Equipment and Services Export Promotion Council (TEPC) and National Association of Software and Services Companies (NASSCOM) and was supported by Department of Telecom and Department of Commerce, Government of India. The Indo Africa ICT Expo, which provisions facilities such as conferences, exhibition pavilions, business meetings and strategies, aims to promote the ecosystem of digital transformation. The mega event provided an excellent platform for participating Indian and African companies to showcase ICT products and services and how they can support each other through close co-operation and for mutual benefits.

Global Exhibition on Services 2018

STPI participated in the Global Exhibitions on Services (GES) - 2018 event held during 15th - 18th May 2018 at Bombay Convention & Exhibition Centre, Mumbai. The event was organised by Department of Commerce, Ministry of Commerce and Industry, Government of India in partnership with Government of Maharashtra, Services Export Promotion Council (SEPC) and Confederation of Indian Industry (CII) to promote trade in services. The event was inaugurated by Hon'ble President of India Shri Ram Nath Kovind. GES is India's premier event for service trade promotion which provides an unparalleled opportunity to showcase the best of India's services to the world and also brings what the world has to offer to India. As a part of GES, a large number of seminars/knowledge sessions were organized on diverse topics where experts, industry leaders and government representatives deliberated on the various issues facing the services sectors. Under the Digital India theme, STPI showcased its services and strengths in the MeitY Pavilion. The event was attended by industry leaders and professionals from various sectors.

Visit of Development Commissioner (Industries), Govt. of Maharashtra to STPI-Pune

Dr. Harshdeep Kamble, IAS, Development Commissioner (Industries), Govt. of Maharashtra, visited STPI-Pune office on 19th April 2018. During the meeting, Shri Sanjay Kumar Gupta, Director, STPI-Pune briefed about the various activities of STPI across Maharashtra and also discussed on the proposed Centre of Excellence (CoE) and India BPO Promotion Scheme.

Tree Plantation during Swachh Bharat Abhiyan

Tree plantation drive was organised at STPI-Pune campus on the occasion of Ambedkar Jayanti on 14th April 2018. Shri Sanjay Kumar Gupta, Director, STPI-Pune in presence of staff planted trees in the campus.

Official Language Implementation

STPI-Mangaluru has been awarded 3rd prize by TOLIC-Mangaluru in recognition of its outstanding performance in implementation of the Official Language Policy of the Govt. of India and in promoting the usage of Hindi in official work in the category of small offices (Central Government Office and Undertaking) during the year 2017-18. The award was received by Shri Ravindra Aroor, OIC, STPI-Mangaluru during the TOLIC Meeting held on 12th June 2018.

Roadshows on IBPS

A number of STPI units conducted roadshows on India BPO Promotion Scheme (IBPS) to spread the awareness about the scheme among the prospective ITES industry representatives. STPI-Dehradun organized a roadshow on IBPS on 24th April 2018 at ITDA Conference Hall, IT Park Dehradun under the chairmanship of Shri Amit Sinha, IPS, Director, ITDA, Uttarakhand. The roadshow was started with the presentation on IBPS by Shri Maneesh Kumar, Joint Director & Officer-In-Charge, STPI-Dehradun. After the presentation, Director of ITDA requested all the participants to provide suggestions and work together in the area of IT/ITES. The event was attended by directors of various IT/ITES companies.

STPI-Bhilai organized a roadshow to promote and create awareness to popularize IBPS by focusing on 10 aspirational districts of Chhattisgarh including Baster, Bijapur, Dantewada, Sukma, Rajnandgaon, Mahasamund, Korba, Kanker, Narayanpur and Kondagaon. Industry representatives participated in the event to know more about the benefits of the scheme.

Similarly, roadshows on IBPS were conducted for adjoining aspiration districts at STPI- Indore on 24th April 2018, at STPI-Gwalior on 19th April 2018, at STPI-Bhopal on 24th April 2018 and at STPI-Jaipur on 20th and 25th April 2018. The specific roadshow was attended by IT and ITES Industry representatives from respective regions. All the participants were highly enthusiastic and eager to know more about the IBPS scheme eligibility criteria, benefits of the scheme including special incentives for providing employment opportunities to differently-abled people, women in rural areas and about the special incentive being provided for opening BPO unit in hilly region. The roadshow also covered important aspects of the IBPS scheme like disbursement of fund, performance & exit management and terms and conditions in the form of a detailed presentation. Participants were also informed about the bid submission process and other terms and conditions. The response of IT/ ITES industry representatives was overwhelming and they showed interest in operating various BPO Operations in the state of Madhya Pradesh.
